WELCOME TO OUR COMPANY

ABOUT ME

As a designer, people often ask me what my “style” is. When it comes to designing, my style is completely inspired by my clients. Anyone can design a space that fits their own style, but I truly enjoy designing spaces that reflect the personality and design dreams of the owner. I believe there is potential in every space, and my goal is to find it and bring it to life. I am strategic with every detail and strive to incorporate both form and function in each design.

At Dona J Interiors, we take a relationship-based approach with our clients and our projects. We believe that relationships are the key to delivering great service. We pride ourselves on building trusting, respectful and reciprocal relationships with our clients, as well as vendors, trade professionals, contractors and builders throughout the BC Interior. These relationships are the pillars upon which our success is founded. Our honest communication, team-based approach and collaborative attitude allow us to achieve high-quality deliverables for our clients.
